

WÜRTH GREEN LINE™

Complete Product Line • March 2015

**Because we care about our customers,
our employees and our environment.**

What is...

WÜRTH GREEN LINE™

Quite simply, WÜRTH Green Line™ stands for high performance products that are environmentally responsible. The Würth brand is recognized around the world as the premium choice for professional craftsmen and our new Green Line is an extension of that.

WÜRTH Green Line™ products combine forward-thinking environmental responsibility with the functional requirements of today's maintenance and repair professionals. These products allow your business to become environmentally-friendly without compromising on quality or performance.

ECOLOGO™

EcoLogo is North America's most widely recognized and respected certification of environmental leadership. By setting standards and certifying products in more than 120 categories, EcoLogo helps you identify, trust, buy, and sell environmentally preferable ("green") goods and services.

Launched by the Canadian federal government in 1988, EcoLogo has grown to serve buyers and sellers of green products throughout the United States and Canada, and around the world. In fact, EcoLogo is North America's oldest environmental standard and certification organization (and the second oldest in the world). It is the only North American standard approved by the Global Ecolabeling Network as meeting the international ISO 14024 standard for environmental labels.

ABSOBON®

The ABSOBON® line from Würth for chemotechnical products offers top quality which at the same time takes environmental needs into account. ABSOBON® products cut down on pollution, reduce the danger potential in everyday use, protect raw material resources and avoid waste. The products of the ABSOBON® line ensure excellent quality for demanding requirements, even beyond the legal and internal company requirements.

ECO LIQUID HAND SOAP

WURTH Green Line's ECO Liquid Hand Soap cleans hands gently and thoroughly. It protects skin, prevents skin irritation and won't dry out your hands. It's also ecologically beneficial and biodegradable. You must apply it with water.

Features

Non irritating to sensitive skin

- One soap for everyone in your company
- Made from pure, refined materials with special additives to improve lather and rinsing properties**

- Use less soap to gain the same effects as with conventional soaps!

Biodegradable, phosphate-free, low impact on aquatic life, no animal testing

- Your company can make less of a negative environmental impact - a fact that your customers will appreciate!

Contains ingredients made from renewable resources

- Eco-friendly products are not only great for the environment, but your customers and employees will appreciate that you offer this alternative!

Description	Art #
1L Pump Bottle	0899891140

No dilution needed - Ready to use

ECO GRAFFITI REMOVER

A safer environmentally friendly vandalism mark remover

Features

Eco-Logo Certified

- Completely biodegradable
- Made from 100% sustainable resources
- VOC free
- A better choice for your health and for the environment

A highly effective natural solvent

- Removes marks caused by crayons, market pens, ballpoint pens, spray paint, carbon paper, adhesives, lipstick, masking tape and mimeo ink

Safe and easy-to-use

- No harsh fumes
- Pleasant odor
- Does not contain ingredients that are harmful to your health, like solvents
- Ready-to-use dilution

Areas of Application:

Ideal for brick, concrete, tiles, marble, enameled surfaces, restroom stalls, road signs, fences, bridges, desktops, furniture, walls, doors and other public surfaces.

Ideal for workplace or bar washrooms, school desks and lockers, parking meters, puck marks on arena boards and municipalities for graffiti on overpasses and buildings, etc.

This 500ml bottle is equivalent to TWO aerosol cans of regular Graffiti Remover!

Mix Ratio:

No dilution needed - Ready to use

ECO BIOLOGICAL FLOOR CLEANER

“Dirt eating” floor cleaner.

Eco Biological Floor Cleaner was specifically designed to penetrate porous floor surfaces to degrade and eliminate grease and other organic materials that can accumulate over time. It produces enzymes that will break down the fatty acid components of grease. The microbes continue cleaning long after you have finished. Customers notice a significant difference in reduced amounts of required cleaning after using this product for as little as two weeks.

Features

- Highly effective immediate results
- pH: 7.5 - 8.5
- Cleans floors and grout
- Controls odor
- Made from 100% sustainable resources
- Reduces conditions that are favorable to pests
- Provides long-term deep cleaning by removing embedded residual organic material found in pores, cracks, crevices and corners
- Reduces potential for slippage by promoting “grease free” floors
- Improves waste stream in drains by creating a biofilm in drains, traps and pipes which reduces build up of waste matter and promotes strong flow
- Environmentally safe, cleans without harsh chemicals

Applications

- Automotive and trucking industries
- Cleans shop floors, removes the grease and oil on floors in hard-to-reach areas
- Food industry - food safe - ideal for kitchens, food plants, restaurants, etc.
- Hospitals
- Metal and maintenance

Mix Ratio:

1:40 or 1:80 parts water based on severity of grease to be cleaned.

Revision 03/2015_WGL Brochure Art. # 1STA9030

Description	Art #
4L Concentrate	0893117218

Note Eco Biological Floor Cleaner will digest all organic matter except petroleum based hydro carbons.

UNIVERSAL SCALE REMOVER

Acid replacement for stubborn scale deposits.

Features

- Completely soluble in water
- Cleans stubborn water scale, lime deposits, rust stains, light corrosion, mildew and mold

Areas of Application

- Ideal for ceramic, grout, terrazzo, quarry tiles, concrete, brick, stainless steel, aluminum, copper and brass
- Also used to clean scale deposits, molds and algae on boat hulls
- Prewash automobiles and trucks to remove hard water spots on windows and painted surfaces

ECO ODOR ELIMINATOR

Odor eliminator and deodorizer.

Features

- Eliminates even the toughest and rankest smells
- Rapidly breaks down bad odor molecules
- Works on both soft and hard surfaces
- Not affected by high temperatures
- Won't release the malodor back into the air even when it dries
- Reactivate it simply by wetting

Areas of Application

Excellent in kitchens, bathrooms, vehicle interiors, public transportation, garbage collection areas and containers, urinals, fitness facilities, pet stores, upholstery and carpets.

Mix Ratio:

No dilution needed - Ready to use

Eco Odor Eliminator - Kiwi/Mango Scent	0893139401

ECO GRANITE TILE AND GROUT CLEANER

Powerful granite, tile and grout cleaner.

Eco Granite, Tile and Grout Cleaner contains biodegradable organic salt which is an extremely effective cleaning agent enabling fast powerful cleaning. **Eco Granite, Tile and Grout Cleaner** dissolves the most stubborn stains on porous materials such as tile, grout, cement and stone. It does not contain any abrasives that could scratch surfaces. This product replaces all harsh acid cleaners such as muriatic acid. **Eco Granite, Tile and Grout Cleaner** can also be used to clean many metals including: stainless steel, aluminum and copper. Use **Eco Granite, Tile and Grout Cleaner** to clean stone products such as terrazzo, quarry tiles, concrete and brick. You will achieve results similar to muriatic acid but without all the danger to workers and materials.

Features

- No VOCs
- Biodegradable
- Completely soluble in water
- Fresh scent
- Foaming action allows for longer dwell time
- Creates absolutely no harsh or corrosive vapors
- Non-caustic, non-acid, non-corrosive
- Made from 100% sustainable resources

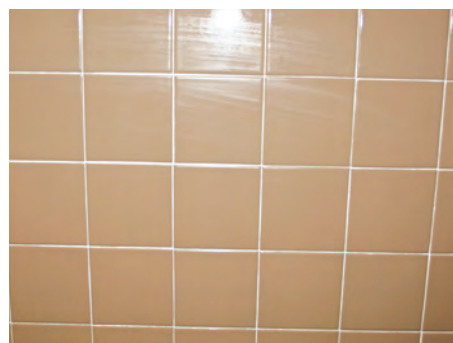

Applications

- Automotive and trucking industries for shop floors
- Fast and efficient cleaning of tile, grout, brick, terrazzo, cement, etc.
- Non-corrosive cleaner for stainless steel appliances and equipment
- Hospitals
- Excellent all purpose cleaner for stubborn water scale, soap scum, rust stains, grease, mildew and mold
- Flooring, kitchen, batch, concrete, brick trades

Description	Art #
500 ml Bottle	08900120

Mix Ratio:

No dilution needed - Ready to use

ECO CAR WASH

Environmentally-friendly light vehicle wash and road film remover.

Features

- Eco-Logo Certified
- Completely biodegradable
- VOC free
- Phosphate free
- Highly effective cleaner - breaks the magnetized bond holding dirt to surfaces
- Highly concentrated form - removes stubborn road film, exhaust deposits and bug residues on cars without time-consuming brushing
- Non-streaking - water sheets off to minimize water spotting and drying time
- Protects and leaves a shine
- Quick and easy to use

Application

- Ideal for cleaning cars, SUVs, motorcycles and any other types of light vehicles
- Can be applied with high or low pressure, with hot or cold water

Use

For maximum efficiency, dilute ECO Car Wash 1:50 with water and apply to surface to be cleaned. Apply ECO Car Wash from the bottom up. Allow time for Eco Car Wash to penetrate soil but DO NOT allow to dry. Rinse all surfaces (working from the top down) thoroughly, especially glass, with clean water. For light cleaning or by hand, dilute ECO Car Wash up to 1:100.

Description	Art #
4L Bottle	0893030104
210 L (55 gal) Bulk Drum	0893030122

Mix Ratio:

- 1:50 - Heavy Duty Cleaning
- 1:100 - Light Cleaning

ECO CARGO WASH

Concentrated free rinsing vehicle wash and wax.

ECO Cargo Wash contains new surfactant technology that provides incredible wash and rinse free results. Shines, protects and prevents oxidation - ECO Cargo Wash provides a brilliant shine and is completely compatible with clearcoat finishes.

Unlike other cargo cleaning products, ECO Cargo Wash has a unique sudsing profile that prevents residual buildup of detergent. When rinsed, ECO Cargo Wash "sheets off", with no beading of water that causes spotting - it dries instantly to a brilliant shine.

Features

- Eco-Logo Certified
- New Surfactant technology
- Biodegradable
- Phosphate free
- Sheets off leaving a brilliant shine
- Dries instantly
- Compatible with clearcoat finishes
- Protects and prevents oxidation
- No hazy after-film

Application

- Safe on all vehicles
- Use with manual, power wash or automatic car washes

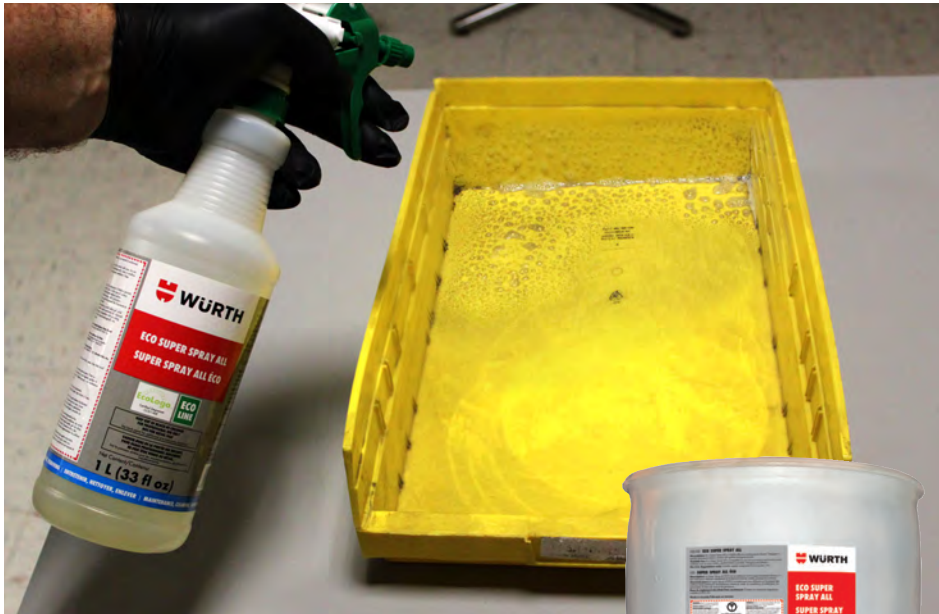

Mix Ratio:

- 1:25 - Heavy Duty Cleaning
- 1:50 - Light Cleaning

ECO SUPER SPRAY ALL

ECO Super Spray All is a highly effective multi-purpose cleaner. It quickly and easily removes a variety of dirt, grease and general soils. Ideal for use on hard surfaces including vinyl, painted metal, porcelain, fiberglass and plastic.

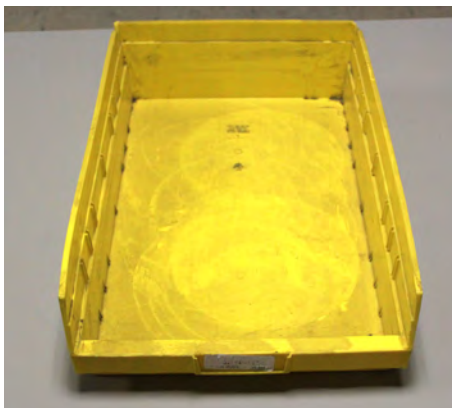

Features

- Quick and easy to use on any washable surface
- Ready-to-use formula ideal for general purpose cleaning
- Removes a variety of grease, dirt and general oils
- Takes off what others leave on
- Meets all low VOC requirements
- Excellent spot remover
- Ideal for auto, boat and industry
- For use on hard surfaces including vinyl, painted metal, porcelain, fiberglass and plastic

OTHER THINGS YOU MAY NEED TO GO WITH

General Purpose Lever Barrel Pump

Ideal for:

- Water, Alcohol, Gas, Diesel, Kerosene & Petroleum Based Products

Construction:

- Polypropylene Housing, Steel Rod, Viton® Seals

Delivers:

- 9 oz. / Stroke

Description	Art #
General Purpose Lever Barrel Pump	189100105

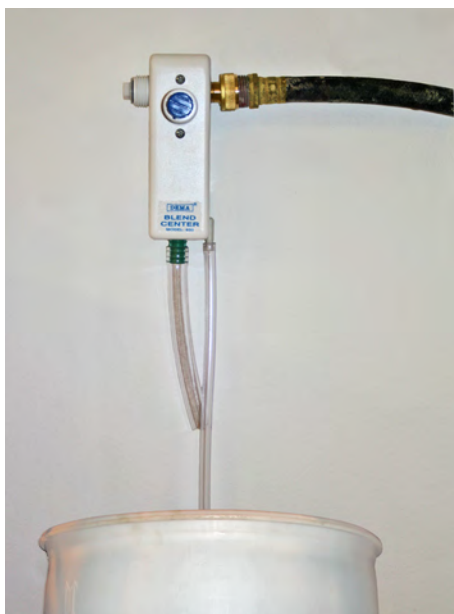

Single Station Dispenser/Mixer

Single station modular dispensing system that can be ganged together and made up from a combination of 1 and 4 gallon per minute units. Versatile dispenser allows user to build the system they require or mount units individually. Mixes/blends concentrated chemical product with water to the desired dilution ratio. Specify 1 or 4 gallon per minute.

- Perfect for concentrated Bulk Eco Products
- Push button activator
- Can be used with most concentrated chemicals
- Convenient stickers to identify product
- Easy to install and mount
- 8 1/2 foot long pick up hose

Description	Art #
Single Station Dispenser/Mixer	1895633427

WITH OUR WÜRTH GREEN LINE™ BULK ITEMS:

Chemical Resistant Spray Bottle

The bottle is made of a thicker resin which offers greater durability and longevity. This sprayer now offers compatibility with an even wider range of chemicals. The bottle graphics include a check off grid for identifying contents and a handy graduation scale for diluting liquids.

- Output: 3.0 cc per stroke
- Constructed with chemically resistant materials
- Fully adjustable spray pattern
- 32 oz. capacity
- 3 imprinted measuring scales (oz. c.c., dilution)
- Built-in strainer to prevent particle clogging

Note: No sprayer is compatible with all chemicals, and no sprayer should be used with chlorinated solvents (including bleach) or chemicals that harden and congeal.

Description	Art #
Chemical Resistant Spray Bottle	0891504

All Purpose German Spray Pump

- Ideal for most chemicals
- 1 Liter capacity
- Area for labeling your product
- Unique pump design
- Not intended for Low VOC Brake Cleaner

Description	Art #
All Purpose German Spray Pump	0891501

Full Absorption Towel

Excellent absorption and liquid retention

- Super absorbent, absorbs 50% more fluids and three times faster than typical cloths
- For use on any surface - will not scratch; use to dry vehicle surfaces to prevent water spots
- Purchase multiple towels for a wide array of applications - washing, drying, polishing etc.
- Can be washed and reused
- Perfect for use with our new polishes, both for application and for buffing and detailing

Floormat	0899500070

REFILLOmat® SYSTEM

The revolutionary dispensing system from Wurth USA that saves you money and reduces waste.

The **REFILLOmat®** system minimizes can garbage and waste, thus reducing negative environmental effects.

The advantages for you:

- Refillable
- Tremendous space savings
- Highly cost-effective
- The **REFILLOmat®** cans have a protected spray nozzle.
- Durable and long-lasting

FEATURES

- The **REFILLOmat®** can looks like an ordinary aerosol can, yet it is a tool. It is convenient to handle and sprays in every position.
- The **REFILLOmat®** station charges the can with 400ml of product (active ingredient) and propellant (compressed air) automatically within 7 seconds.
- **REFILLOmat®** combines the ease and convenience of an aerosol with the cost savings of bulk into one innovative system.

GET THE LEAD OUT

Wurth USA is proud to offer a complete line of non-lead Wheel Weights.

So what are you waiting for?

GO GREEN with a New Standard of Excellence

Rounded clip end for **scratch-less** installation.

Superior coating for corrosion resistance.

Exact fit to the rim contour for **superior retention.**

Why Steel and Zinc?

With new environmental legislation in Europe and movements by the OEMs and now the aftermarket in North America, the time for change is upon us. Würth USA offers an expanded line of steel and zinc wheel weights as a greener alternative without sacrificing important characteristics such as retention and corrosion resistance. Switching to lead-free alternatives will allow each of us to reduce the impact of lead accumulation in our environment. These weights have the same functionality, appearance, and fit characteristics as conventional wheel weights. These non-lead weights are designed and produced for cars with both steel and alloy wheels, and are coated with a protective coating to ensure corrosion resistance.

NLFWWI Partner

The National Partnership for Environmental Priorities National Lead Free Wheel Weight Initiative (NLFWWI) encourages the transition from the use of lead for wheel weights to lead-free alternatives. Würth USA is a proud partner, since 2010.

Your Advantages

- Increased productivity
- Reduced downtime
- Fewer "comebacks"
- Improved organization
- OEM quality
- Environmentally-conscious

Wheel Weight Recycling Program

Complete disposal and recycling service provided by Würth USA!
We comply with all environmental standards!

Lead is considered a hazardous material to the environment. As a result, the disposal of used wheel weights has become a concern to large volume users of wheel weights. Not to mention the clutter and mess caused by used wheel weights and lack of inventory control.

As a service to our customers Würth offers a Used Wheel Weight Recycling Program. With collection boxes and return stickers to handle all of your used wheel weights, we relieve you of the task of properly complying with approved disposal methods.

Our sales representative will coordinate this process for you. Your company can avoid common problems, such as discarded weights around the wheel balancing equipment and used product being re-installed on one of your customer's vehicles.

PASSENGER WHEEL WEIGHTS

P-Series • Steel Wheel Weights

For use on passenger car steel wheels. For applications on full size pickups and vans, we recommend the use of our T-series light truck weights.

Key Components of an Effective Adhesive Wheel Weight

Density - The higher the density, the better. When you lower the material's density, you also lower the balancing efficiency.

Ease of Use - It doesn't get much easier, or convenient, than having a pre-segmented weight with our QuickTab® feature. Measuring and cutting create additional installation time.

OE Approved Product - OE Engineers do extensive testing to make sure a product performs to their standards.

Low Profile Availability - Some vehicles require a low profile wheel weight to clear the caliper.

Packaging - A standard box allows you to organize and manage your inventory using your current system.

of SKU'S - It is important to be able to properly complete any job using only two SKU's. Standard and Low Profile.

Low Environmental Impact

There is growing concern for lead wheel weights and lead's impact on the environment. Europe has already mandated the elimination of lead and the U.S. EPA is considering similar measures. To ensure the market has an effective alternative, Wurth USA is offering adhesive wheel weights made from the most widely used material in the automotive industry: steel. The high cost and low density of composite plastics and dynamic media make steel the only logical choice for a non-lead adhesive weight. These weights have the same functionality, appearance, and fit characteristics as conventional adhesive wheel weights. These non-lead weights are designed and produced for cars with both steel and alloy wheels, and are coated with our Wheel Protectors® coating.

Coated Low Profile Segmented Adhesive Weights

1/4 oz Increments, 3 oz Strips • Steel

Pre-cut, pre-taped weight. Used where the brake caliper clearance knocks off the standard thickness weights, 3/4" wide.

NEW Easy Break Design!

Our new coated weight design has the same length, width and thickness but makes the segments easier to break! Thanks to a very small bridge between segments, its a snap!

Desc	Art #
Coated	1830242960

Coated Segmented Steel Adhesive Weights

For Light-duty and heavy-duty trucks
1 oz. increments, 6 oz. strips.

Designed for Heavy-duty truck applications.
 1" wide, pre-cut.

Qty/box	Art #
30	183024560

Zinc Low-Profile Wheel Weights

Great for use on most motorcycle wheels!

60 gram adhesive wheel weight strip, made up of 12 x 5 gram segments.

These adhesive wheel weights are made of premium zinc alloy. Each strip is designed to be very malleable and thus easy to adjust to the wheel's rim radius. The segments are separable without a tool. Each color features a resilient coating for permanent corrosion protection and a stylish look.

Each box contains 25 adhesive wheel weight strips.

WHEEL WEIGHTS ON A ROLL A high quality, environ

European Adhesive Wheel Weights On A Roll

Adhesive Zinc Wheel Weights On A Roll

Adhesive Zinc Weights on a roll for peeling off the amount you need for proper balance.

- Made with zinc which doesn't have the negative environmental properties associated with lead
- With powder-coated surface and dark adhesive tape that is thermally stable up to 356 °F
- Saves time, as lengthy searching and sorting of individual weights is not necessary
- Can be used with any aluminum rims
- 1,000 5-gram segments (5kg)

Art. # 083014735

Adhesive Steel Wheel Weights On A Roll

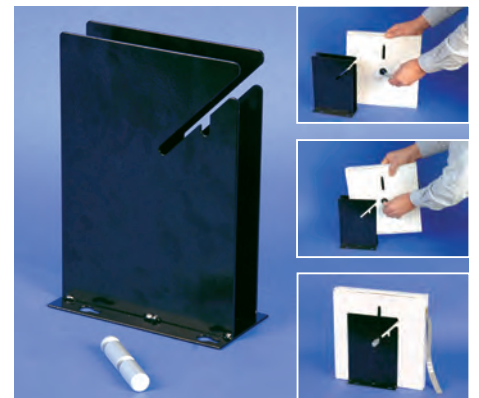

- Go green! Steel is 100% biodegradable
- Galvanized, plus powder-coated surface and dark adhesive tape that is thermally stable up to 356 °F
- Saves time, as lengthy searching and sorting of individual weights is not necessary
- Can be used with any aluminum rims
- 1,000 5-gram segments (5kg)

Art. # 083014415

Holder For Adhesive Wheel Weights On 5Kg Rolls

- Suitable for wall mounting - Ensures storage close to workspace
- Compact design - Space-saving installation directly at the workspace
Space required for installation just 8x16cm
- Order and system - No lengthy searching for the weights
No waste when using rolls
Fast, simple working by storing at the workplace
- Optimized carton with measuring tape on outside
- Fastening of roll in carton - No loss of time due to lengthy unpacking
- Powder-coated design for harsh daily workshop work
- Suitable for zinc and steel wheel weight rolls (Art # 083014 735 and 083014 415)
- Delivered without fastening materials

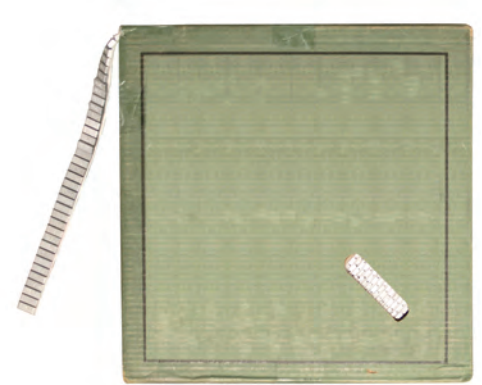

Art. # 083014990

Environmentally-conscious alternative to lead wheel weights

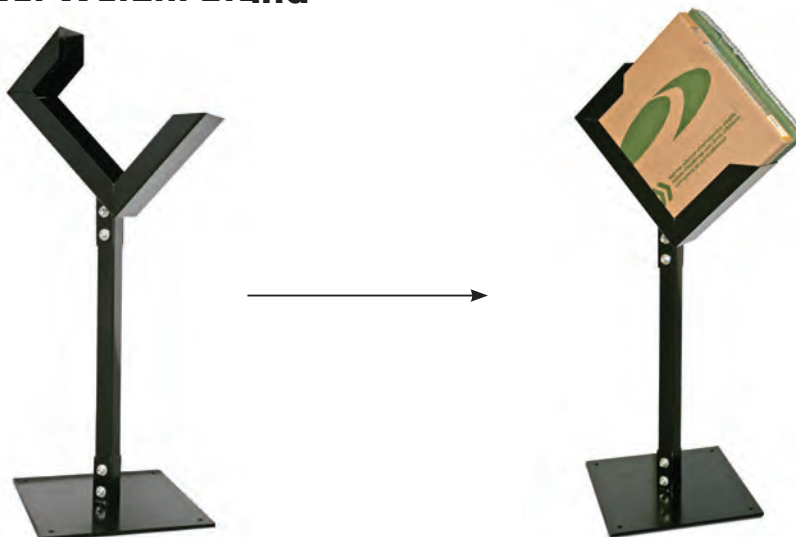

Domestic Adhesive Wheel Weights On A Roll

- No measuring - pre-segmented for quick selection
- No cutting - easy to tear paper backing reduces installation time with an easy-to-peel backing
- No waste - dispense only what you need
- OE adhesive - sticks fast and holds longer

#	Description	Art #
